

AMMUNITION PURCHASE/DELIVERY OPTIONS

To Whom It May Concern:

Due to the volatility of the ammunition market, delivery is very unpredictable. This has caused a delay in shipping orders complete. To better serve our customers we have identified three (3) options to ensure the best delivery of ammunition to you.

 Payment for partial delivery of orders

This option would require your agency to pay for any product delivered, net 30 days from delivery.

 Separate purchase orders on each line item

This option would require a separate purchase order for each line item. This would allow us to bill your agency net 30 days on delivery of each item.

 Complete Delivery

In complete delivery option, you agree to accept delivery of the complete order and not to accept partials. This could cause a delivery issue for up to (6) six to (9) months on products. If this option is chosen, other product committed to your order could be moved to fill other customer's orders.

Please checkmark one of the above options. We must have a signature on this document in order to process any orders for ammunition.

I agree to the terms in the above checked item.
